

`math::geo::vertex`

```
graph BT; A["math::geo::tri"] -.->|v_| B["math::geo::vertex"]
```

The diagram illustrates an inheritance relationship between two classes. At the bottom is a gray rectangular box containing the text `math::geo::tri`. A dashed purple arrow points vertically upwards from this box to a white rectangular box at the top containing the text `math::geo::vertex`. The arrow is labeled with the text `v_` to its right.

`v_`

`math::geo::tri`
