

Neb::Graphics::Camera::View::Base

```
classDiagram
    class Base["Neb::Graphics::Camera::View::Base"]
    class Free["Neb::Graphics::Camera::View::Free"]
    class Ridealong["Neb::Graphics::Camera::View::Ridealong"]
    Free --|> Base
    Ridealong --|> Base
```

The diagram illustrates a class hierarchy. At the top is the base class, 'Neb::Graphics::Camera::View::Base', which is highlighted with a gray background. Below it are two subclasses: 'Neb::Graphics::Camera::View::Free' on the left and 'Neb::Graphics::Camera::View::Ridealong' on the right. Blue arrows point from each subclass box up to the base class box, indicating that both 'Free' and 'Ridealong' inherit from 'Base'.
